

## **DISC Personality System**

### **Certification**

Based on the well-known and widely used DISC Personality System, this specially designed two-day intensive programme, Introduction To Behavioral Analysis (Certification & Training) will equip you with key people-reading skills and help you become proficient in Behavioral Analysis in no time.

This program provides you with a framework to understand human behaviour more profoundly. It explores four basic personality styles and you learn to relate better to someone of a different style. You will administer and interpret an assessment instrument that identifies behavioral style. These instruments are widely used in counseling, human resource management and professional consulting.

The program includes lectures and small group interaction, a 76-page Certification Syllabus Pack, a set of practice profiles and a set of 8 audio- cassette tapes. All these materials are neatly compiled in a three-ring binder. This means you can refresh your memory whenever and wherever you want, to help you read and communicate with people.

The face-to-face program will also prepare you to sit for a proficiency test. Upon completion, you'll receive the DISC certification from the Institute for Motivational Living and be presented with the title of Certified Behavioral Consultant.
